

CRI Selected to Deloitte's Technology Fast 50 Program for Second Consecutive Year

Attributes quality staff producing quality service to its continued revenue growth

McLean, VA – October 12, 2007 – CRI, a trusted provider of technology, security and business solutions to the federal government has been named to Deloitte's prestigious Technology Fast 50 Program for Virginia, a ranking of the fifty fastest growing technology, media, telecommunications and life sciences companies in the state by Deloitte & Touche USA LLP, one of the nation's leading professional services organizations. Rankings are based on the percentage revenue growth over five years from 2002–2006.

CRI's continued growth over the last year includes significant success in providing expanded support in the HSPD-12 and Physical Access Control Systems (PACS) areas. CRI offers an integrated approach to PACS and Information Technology including a wide variety of hardware, software, application, data and system integration needs. CRI is one of only 32 certified HSPD-12 integrators providing FIPS 201-1 compliant solutions for the Federal community.

CEO Victoria Johnson credits CRI's highly experienced and dedicated team for its tremendous success. Johnson said, "I am proud of being recognized again for the success we have had. Our success is wholly dependent on the dedication and creative solutions provided by our people. Our track record of delivering timely solutions is reflected by our customer loyalty."

CRI was established in 1994 and has now grown to over 130 employees. CRI leverages its collaborative expertise to deliver exceptional value supporting the current and emerging needs of government and industry. CRI provides services under GSA Schedules 70 and 84, the STARS Government Wide Acquisition Contract and MOBIS.
