CRI Celebrates Its 20th Anniversary

McLean, Va. – May 02, 2014 – CRI, a technology, business, and security solutions provider delivering proven results through experience and innovation, proudly celebrates its 20th Anniversary

"It is hard to believe that we are celebrating our twentieth anniversary this year. CRI has come from a small start-up 8(a) business to an established multi-million dollar professional services firm who can compete with even the biggest of the federal consulting businesses. We now support customers throughout the United States including Hawaii and Puerto Rico.

I truly believe that our success is a reflection of our dedication to always maintaining respect, collaboration, and commitment to each of our customers and our employees. CRI began with these values and they are as valid now as they were 20 years ago. I know that our success has been based on providing exceptional services and support to our clients and I am committed to never losing sight of the culture that has been instrumental to our success along the way."

 -Victoria Johnson, President and CEO

Since its founding in 1994, CRI has grown to serving over 17 federal agencies today (commercial entities?). During the past five years, our revenue and employee growth rate have consistently grown. CRI's capabilities have expanded to include the following (we need to convey that we provide so much more):

- Identity, Credential & Access Management (ICAM) Solutions
  - Logical & Physical Access Integration Support
  - GSA Certified System Engineer ICAM PACS (CSEIP) Staff
- Comprehensive Integrated Physical Security Program Support
- Critical Infrastructure Protection
- Business Process Analysis Support
- Program Management Office Support
- IT System Development, Implementation, Operations & Maintenance
- Information Assurance
- HSPD-12

CRI now provides products and services to federal, state, and local agencies as well as commercial corporations throughout the U.S. CRI has been certified by the General Services Administration as one of a limited number of approved HSPD-12 System Integration Services Providers. CRI maintains several government-wide contracts including:
- GSA IT Schedule 70 (IT)
- GSA Schedule 84 (Commercial security products and services)
- GSA STARS II GWAC Contract
