CAPABILITIES OVERVIEW

Communications Resource Inc. (CRI), headquartered in McLean, Virginia, has supported the federal government for over two decades. We create innovative approaches and exciting products to meet client challenges by balancing the boundaries of technology with a risk-based perspective of customer needs. Our successful engagements encompass physical and cyber security, application development, enterprise architecture, and business process solutions.

INTEGRATED SECURITY SOLUTIONS

CRI provides full systems integration of today's leading edge technologies in physical security. Our team of in-house security experts offers a broad range of services and expertise; including design, installation and maintenance of ePACS, CCTV and PSIM. Supporting services include risk assessment, emergency planning, FICAM, HSPD-12 and PIV compliance support and full Security Assessment & Authorization (SA&A) support in accordance with Federal Information Systems Management Accreditation (FISMA) guidelines with Certified Information Systems Security Professional (CISSP) certified staff. With our knowledge of state-of-the-art products as well as government and commercial standards, we specialize in providing our clients with tailored solutions to properly address their specific security requirements.

◤ Integrated Security Risk Program Support
◤ Establishing Emergency Operations Command Centers
◤ FICAM, HSPD-12 and PIV Compliance Support

BUSINESS SOLUTIONS

CRI supports business operations at both the strategic and tactical levels. We apply business reengineering expertise to improve customer efficiency and to collaboratively incorporate new technologies. Our services include: acquisition services, hardware & software upgrades/purchases/relocations, PMP® based project management services, Integrated Product Team (IPT) facilitation, and training.

◤ Identity and Credential Access Management (ICAM) Support
◤ Program Management Office Support
◤ Strategic Planning

TECHNOLOGY SOLUTIONS

CRI offers technology solutions designed to meet customer specific business needs. We follow a full system life-cycle development process that integrates a risk-based approach to cyber security. Our range of technology services encompasses software operations and maintenance, information assurance, 508 accessibility compliancy, enterprise architecture support, Commercial Off-the-Shelf (COTS) implementations, documentation, training, helpdesk services, mobile applications, and independent system testing and validation.

◤ System Development, Implementation, Operations & Maintenance
◤ IT Consulting Services
◤ Information Assurance

EMERGENCY PREPAREDNESS

CRI assists Federal Mission Critical Agencies and Facilities in the development of comprehensive and integrated physical security and emergency management capabilities that incorporate Response Partners and Stakeholders in support of critical infrastructure and mission areas. Our suite of emergency preparedness products includes Security Plans, Continuity of Operations Plans (COOP), Business Continuity Plans, and Emergency Action Plans. We support the development of these preparedness plans by designing, planning and executing comprehensive Test, Training and Exercise (TT&E) programs aligned with federal guidance.
