CRI Secures $1M Task Order for Command Center Guard Operation Support Services for the Social Security Administration

McLean, Virginia – August 2016 – Communications Resource, Inc. (CRI), a full-service security systems integrator, will provide the overall spectrum of physical security and control center operations support to the Social Security Administration. These efforts include viable continuity capability, which ensures the performance of the SSA's essential functions during any emergency or situation that may disrupt normal operations at its headquarters in Baltimore, MD.

By implementing over two decades of best practices in Command Center Operations, CRI will be responsible for monitoring the safety and security of the agency's employees, facilities, and property on a 24/7 basis. This includes detecting, analyzing, and alerting our government customer regarding any adverse conditions – such as, severe weather, political instability, crime, terrorism, and technical failures.

Victoria Johnson, CRI President and CEO, states, *"With our long tenure of experience in building command center operations, it is our highest priority to ensure the SSA's continuity of operations and support their comprehensive and effective program to ensure safety and security for all individuals under all circumstances."*

ABOUT CRI
CRI, headquartered in McLean, Virginia, has supported the federal government for over 20 years. We create innovative approaches and exciting products to meet client challenges by balancing the boundaries of technology with a risk-based perspective of customer needs. Our successful engagements encompass physical and cyber security, application development, enterprise architecture, and business process solutions.
