

## Communications Resource, Inc. (CRI) Awarded DHS Transportation Security Authority (TSA) Fingerprinting Services, Helpdesk and Maintenance Support

**McLean, VA – May 2013** – CRI (as a Joint Venture partner of SightComm) was awarded a two year contract for support to TSA's enterprise fingerprinting services program. CRI will initially develop technical specifications to identify and define all business and functional requirements relating to fingerprint submission, historical database access, and migration of historical database elements. CRI will develop an Integrated Automated Fingerprint Identification System (IAFIS) compliant fingerprint capture, submission and response information system to allow for encrypted live capture and card flat submissions from all six TSA federal regions. This

support encompasses Federal Risk and Authorization Management Program (FedRAMP) Cloud services, Security Assessment and Authorization (SA&A) adherence, deployment, training, operations and maintenance, and full help desk support of a nationwide biometric and personnel suitability program.

Victoria Johnson, CRI President and CEO, stated *“This is an exciting opportunity for us to expand our existing technology capabilities into a new client base as well as a state-of-the-art application. This is right in line with our strategic vision.”*

### **ABOUT CRI**

CRI, headquartered in McLean, Virginia, has supported the federal government for over 20 years. We create innovative approaches and exciting products to meet client challenges by balancing the boundaries of technology with a risk-based perspective of customer needs. Our successful engagements encompass physical and cyber security, application development, enterprise architecture, and a variety of business process solutions.
