

## **CRI Awarded Department of Homeland (DHS) Security Transportation Security Administration (TSA) Fingerprint Services**

**McLean, VA – September 2015** – Communications Resource, Inc. (CRI) (as a Joint Venture partner of SightComm) was awarded a follow-on award for support to TSA's enterprise fingerprinting services program. This three-year follow-on support encompasses the procurement, design, deployment, training, operations and maintenance, and help desk support of a nationwide biometric and personnel suitability program. CRI also provides Security Assessment and Authorization (SA&A) support in accordance with the Federal Information Security Management Act (FISMA) and the National Institute of Standards and Technology (NIST). We conduct IT Strategic Planning to ensure full continuity of business operations for TSA's current and new employee suitability for employment processing.

Victoria Johnson, CRI President and CEO, stated *“This award represents the ongoing development of CRI’s capabilities into new technologies and is an example of CRI’s continued focus on customer satisfaction. I am excited about the continuing growth of our training expertise which now includes webinars and subject specific training videos.”*

### **ABOUT CRI**

CRI, headquartered in McLean, Virginia, has supported the federal government for over 20 years. We create innovative approaches and exciting products to meet client challenges by balancing the boundaries of technology with a risk-based perspective of customer needs. Our successful engagements encompass physical and cyber security, application development and maintenance, enterprise architecture, and a variety of business process solutions.
